

ANTI-TRANS LEGISLATION 2022

- Anti-trans laws or executive orders have been passed, signed, and enacted into law.
- One or more anti-trans bills are active in committee and are at high risk for passing into legislation.
- One or more anti-trans bills have been introduced (within the last year) and are a lower risk for passing into legislation.
- Anti-trans legislation has not been introduced or passed (within the last year).

TGNC communities are under attack throughout the US with anti-trans legislation introduced and/or passed in the vast majority of States in the US. This map was developed to track these activities and show how widespread these attacks are. TSC is committed to working together with both trans communities and leaders from intersecting social justice movements to fight these hateful efforts.
